

# CLEANTECH

## WE UNDERSTAND YOUR NEED FOR:

- Product design and development
- Speed
- In-depth knowledge of government regulations
- Coin and paper handling
- Superior performance and lower costs
- Security
- Value Analysis & Engineering
- Global manufacturing facilities

## DOING OUR PART FOR A CLEANER TODAY, A CLEANER TOMORROW

PartnerTech has the expertise and experience required to manufacture deposit return, reverse vending, LED lighting systems and heat pumps products. We have the in-depth knowledge of security, new technology, recyclability and liquids required to support the fluctuations in volume and production of modules and complete systems.

With a global network of manufacturing facilities across Europe, China and the United States and state-of-the-art facilities, PartnerTech can support you through your product's entire life cycle.
